IN MEMORIAM

IN MEMORIAM
WALTON: In loving memory of our dear brother, Walker Walton.
Some say time heals all sorrow,
And helps us to forget;
But time has only proven,
How much we miss him yet.
The world may change from year to year,
And friends from day to day.
But never will the one so dear,
From memory pass away.

CHECK WIRING

Adequate farmstead wiring is essential to peace of mind, says A. J. Lambert, of the VPI agricultural engineering department. And wiring that was adequate a few years ago may no longer be safe. That's true, too, of many older urban homes.

Over the years new electrical appliances have been loaded onto old circuits until they can no longer function as they were designed.

Slow starting motors, flickering lights, electrical heating appliances that don't heat as fast as they should — these are all signs of inadequate wiring.

As the use o felectrical equipment is expanded, the wiring system should be expanded. It is even better to look to the future and make allowances for possible additions later.

Why art thou cast down, O my soul? and why art thou disquieted within me? Hope thou in God.—(Psalm 42, 11.)
It comes to all of us that, having achieved our worldly desires, we still know a vague and gnawing despair of joy unfulfilled. And it will give us no peace until, humbly seeking, we have made our peace with the Lord.
